**Sensory Kits**
Books, activities, and more for kids and teens on the spectrum and their families.

**Sewing Machine**
Why purchase a pricey machine when you can borrow one from your library?

**Coming soon: VR Headsets**
Standalone headsets let you float in space, go underwater, and more.

Request them at your library or visit [cefls.org/library-of-things](http://cefls.org/library-of-things).
What Kind of Things?

All kinds!

Libraries are quickly transforming from a place that you quietly check out books to something much more. (You can still get the books, of course.) They’re becoming meeting places, community spaces, crafting spaces, tech centers, and laboratories. Why not take some of that home with you?

Check out some hands-on learning experiences from your library!
